

2024 Ferrari Hillclimb Championship Championship Permit:- CH2024/S033 (Grade C)

Championship Bulletin No 02

348/355/360 Wheel Nut Technical Exemption

4.1 (e) Wheels – must be listed as original equipment or factory option, rim widths must not exceed 1” beyond the widest original rim, front and rear, and up to 1” increase in diameter. 16” diameter wheels are permitted on 246 and 308 tipo cars. Ferrari F355 standard magnesium wheels may be replaced but must conform to the original dimensions (diameter, width and offset) or use the original F355 Challenge wheels.

Where non-steel wheel nuts are fitted as standard to 348, 355 and 360 tipos as permitted in accordance with ASN Technical Exemption CTE-2024-071 these must be Ferrari part number 163370 with a torque setting of 10 Kgm (98 Newton Meters). On request of an ASN licenced Scrutineer Competitors must be able to demonstrate the torque setting applied at any time during the Competition.

Amendment: Additional wording in respect of Technical Exemption to S.10.5.

Issued on 18th June 2024 by The Ferrari Owners' Club of Great Britain.
